

'PYRAMIDS OF POWER'

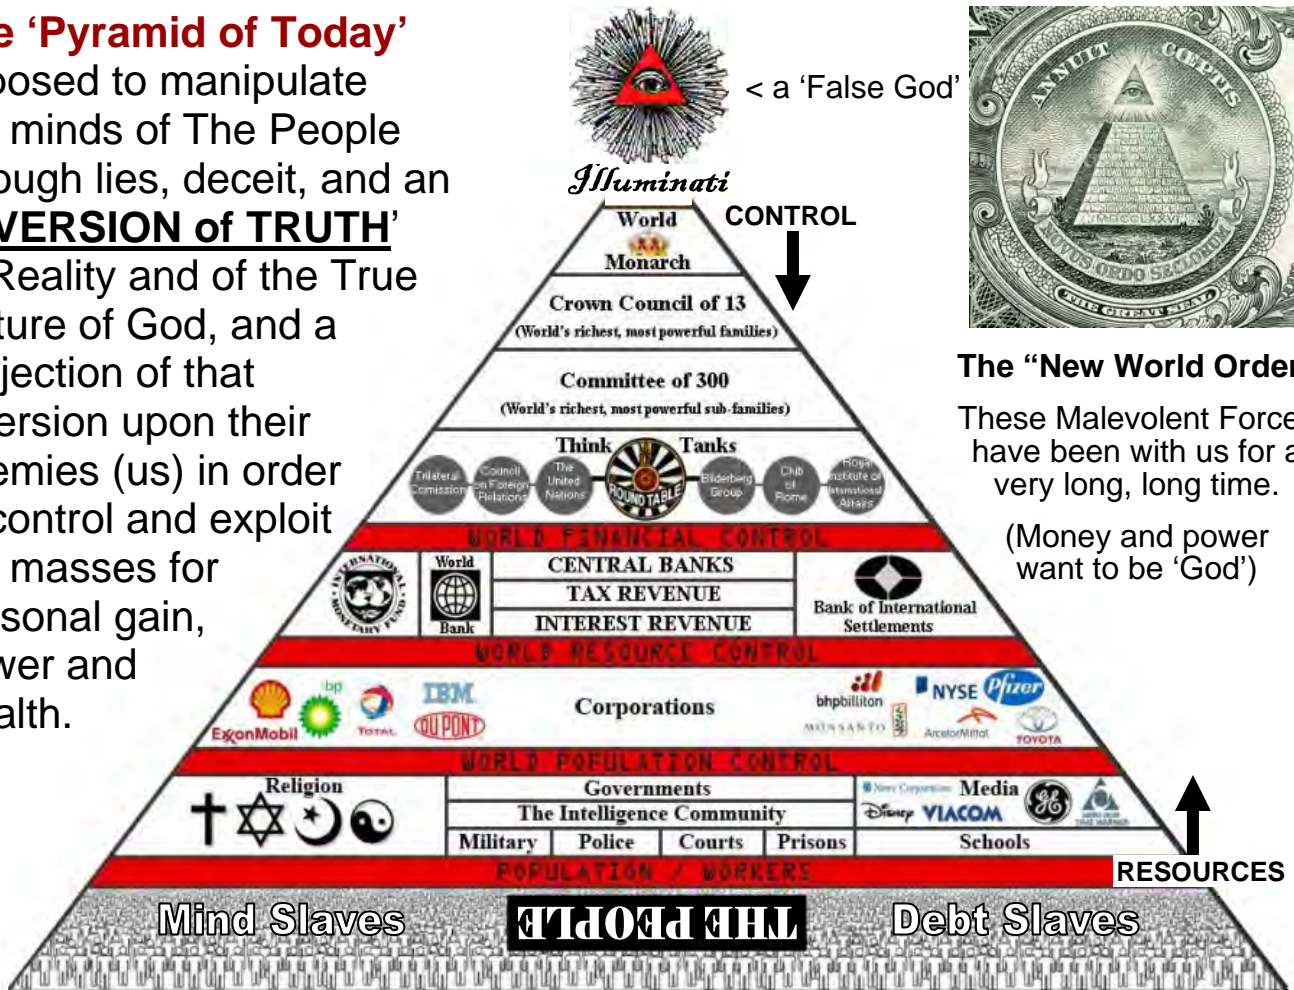

The 'Classical Pyramid'

imposed upon the people throughout the entire history of civilizations in order to control and exploit the masses for personal gain, power and wealth.

The 'Pyramid of Today'

imposed to manipulate the minds of The People through lies, deceit, and an 'INVERSION of TRUTH' of Reality and of the True Nature of God, and a projection of that inversion upon their enemies (us) in order to control and exploit the masses for personal gain, power and wealth.

The "New World Order"

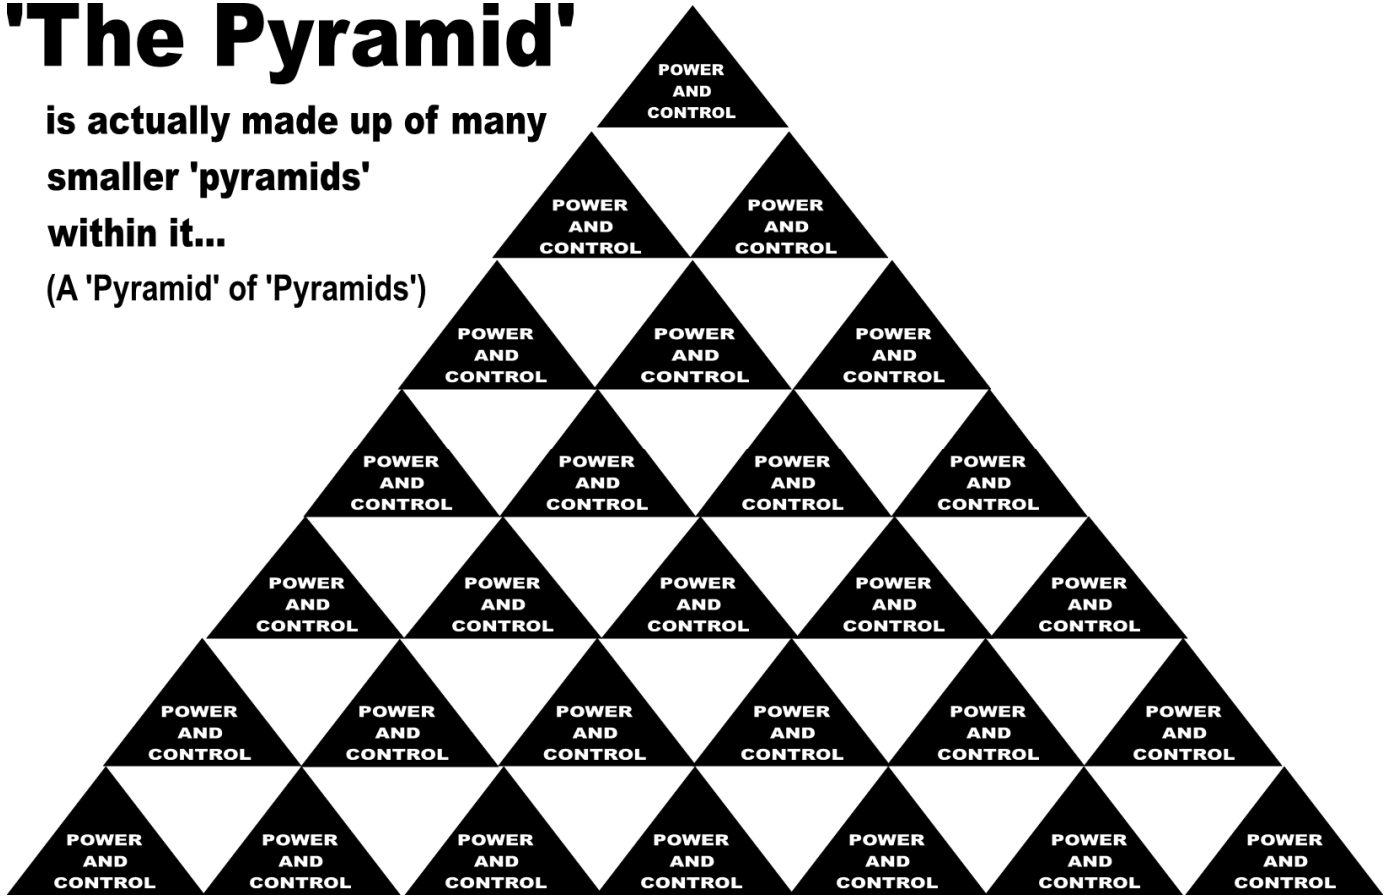

These Malevolent Forces have been with us for a very long, long time.

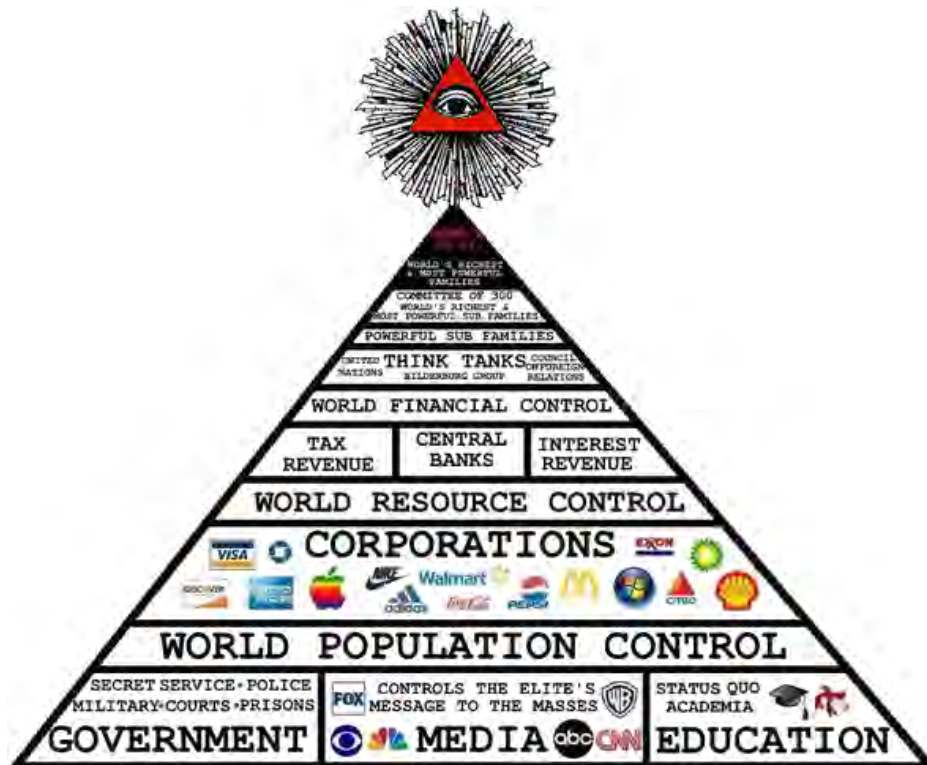

(Money and power want to be 'God')

'The Pyramid'

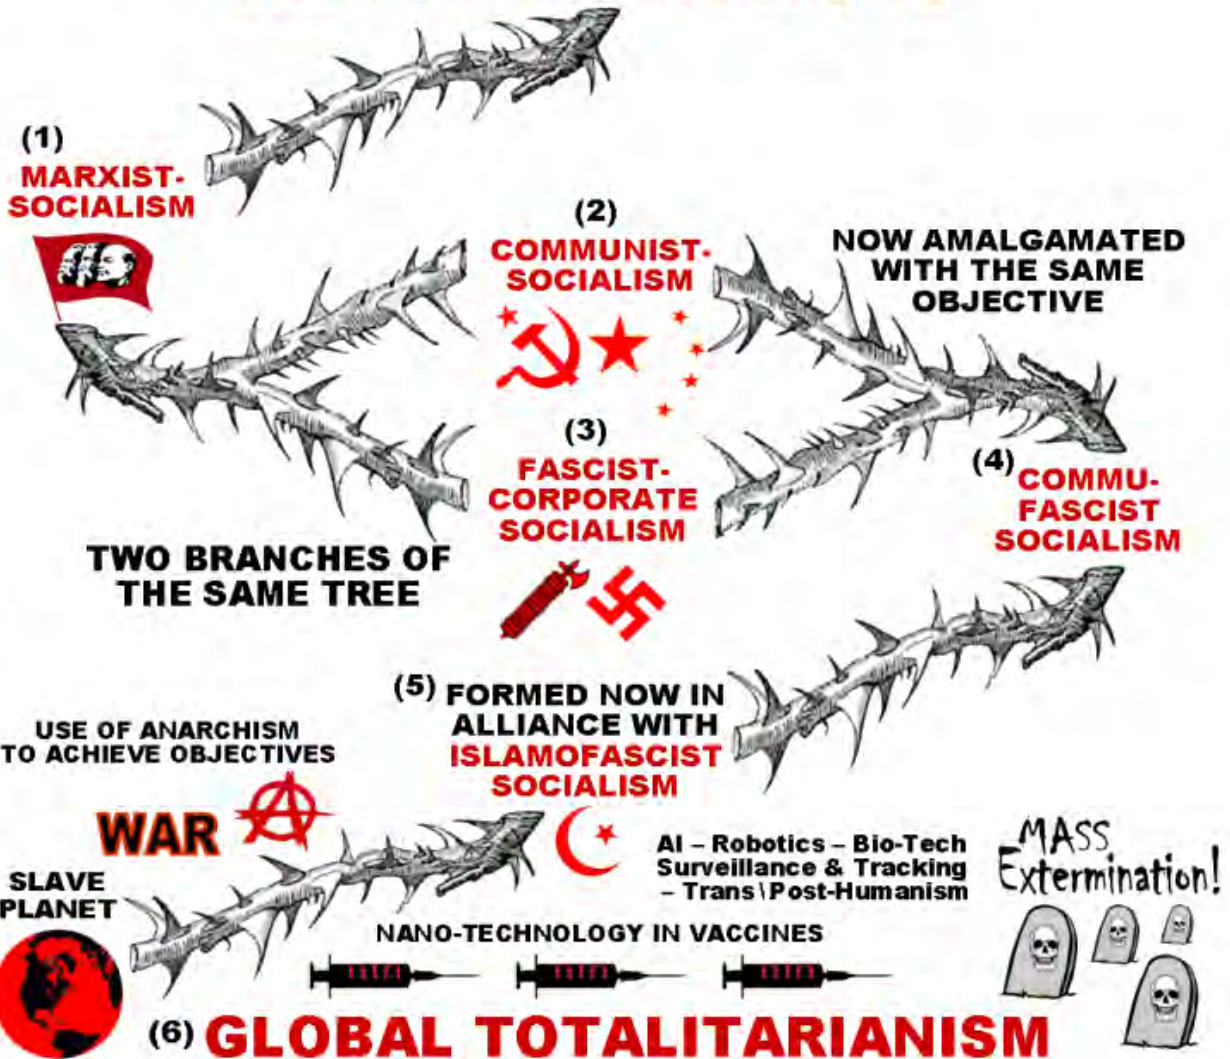

is actually made up of many smaller 'pyramids' within it...

(A 'Pyramid' of 'Pyramids')

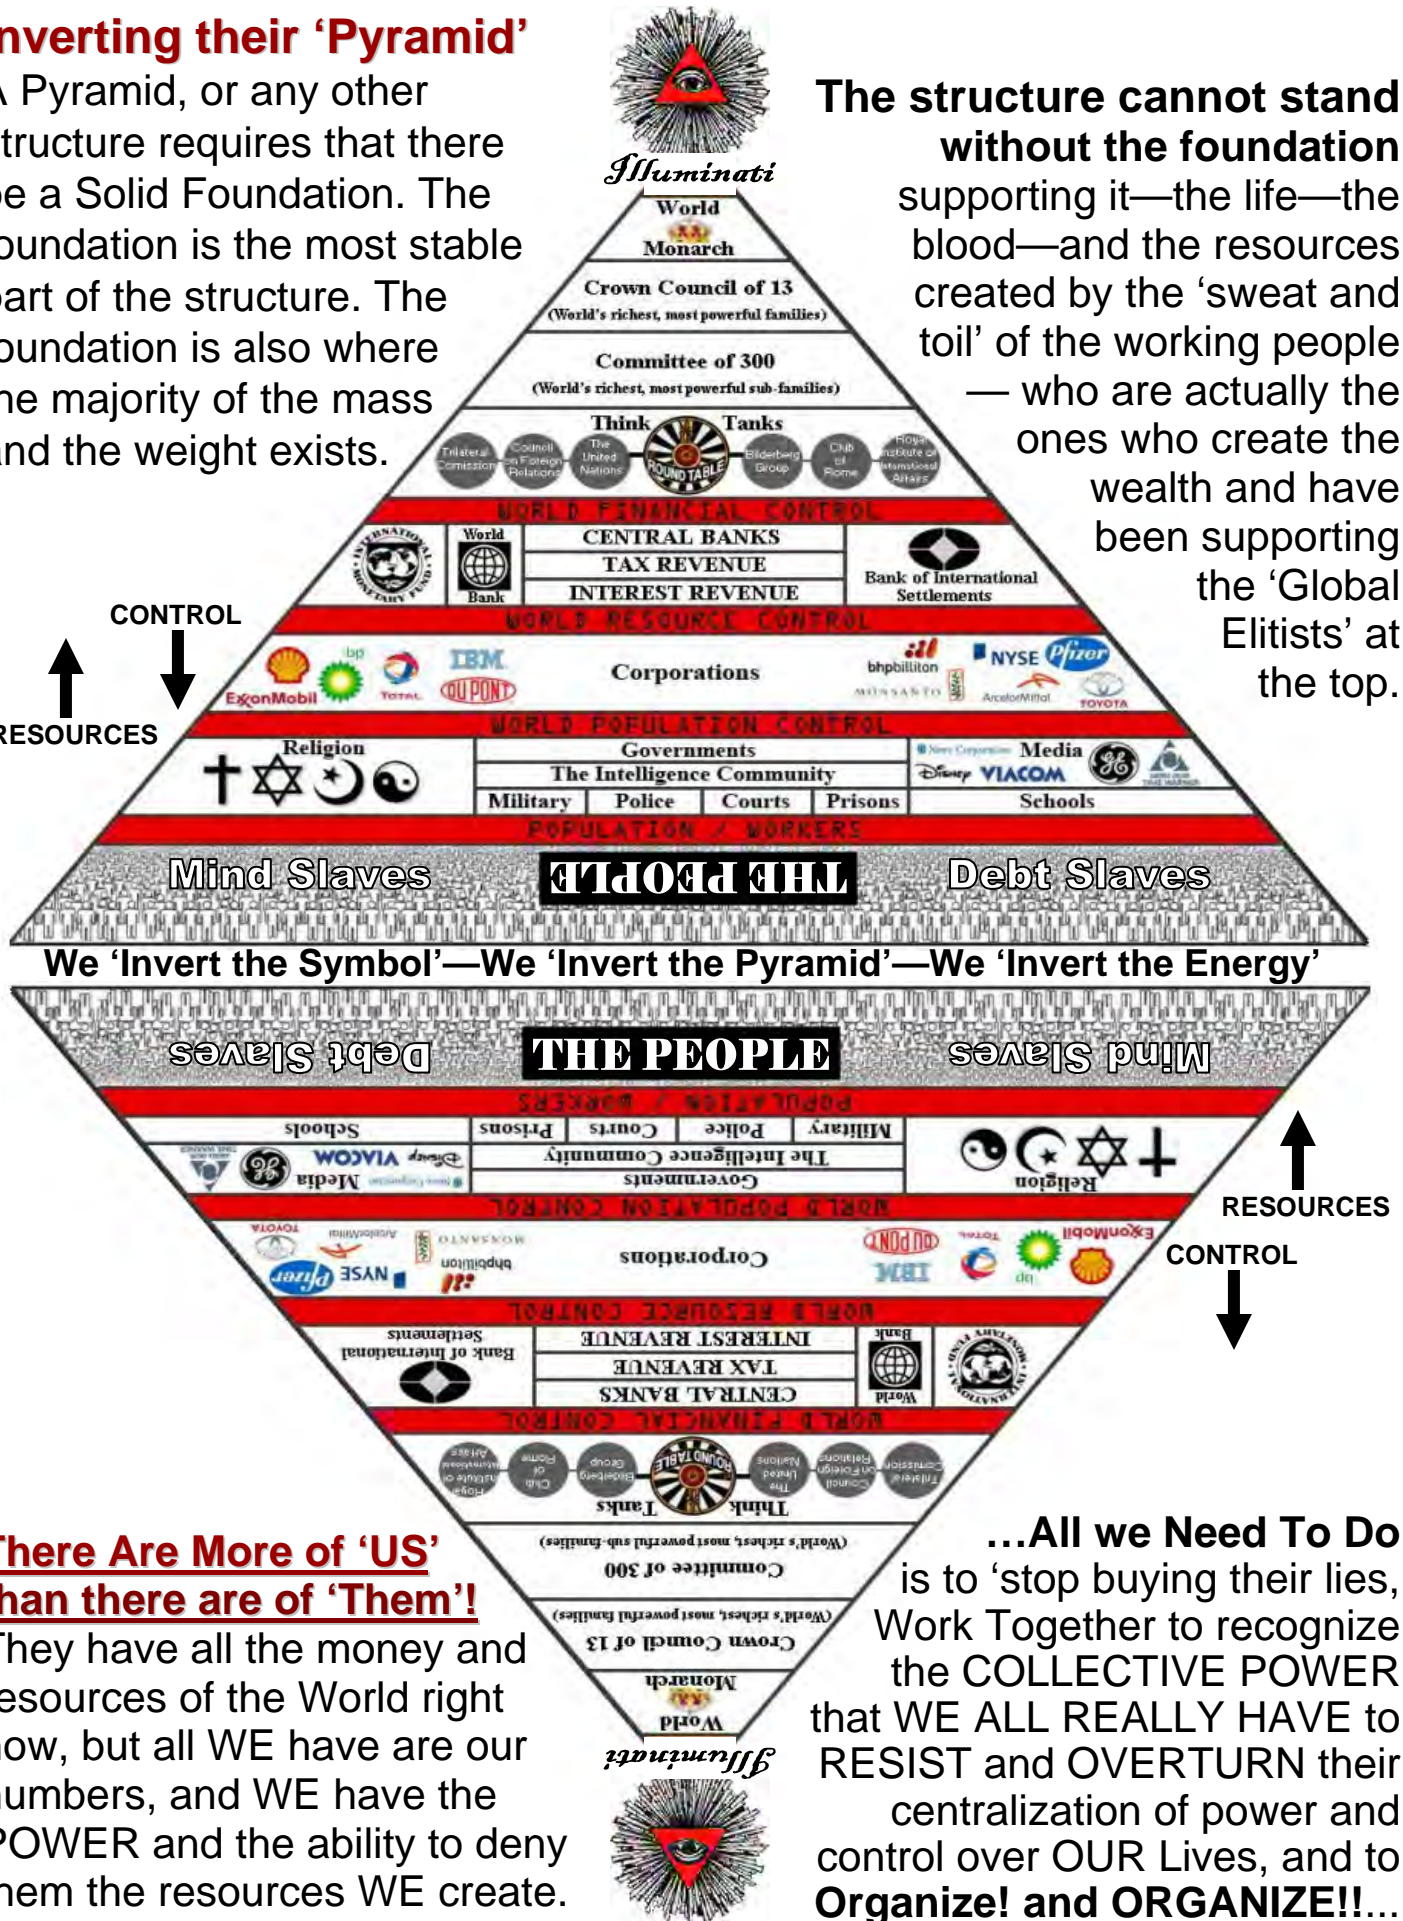

THE FINAL SIX STEPS TO

Inverting their 'Pyramid'

A Pyramid, or any other structure requires that there be a Solid Foundation. The foundation is the most stable part of the structure. The foundation is also where the majority of the mass and the weight exists.

↑
CONTROL
↓
RESOURCES

The structure cannot stand without the foundation supporting it—the life—the blood—and the resources created by the 'sweat and toil' of the working people — who are actually the ones who create the wealth and have been supporting the 'Global Elitists' at the top.

We 'Invert the Symbol'—We 'Invert the Pyramid'—We 'Invert the Energy'

↑
RESOURCES
↓
CONTROL

There Are More of 'US' than there are of 'Them'!

They have all the money and resources of the World right now, but all WE have are our numbers, and WE have the POWER and the ability to deny them the resources WE create.

...All we Need To Do is to 'stop buying their lies, Work Together to recognize the COLLECTIVE POWER that WE ALL REALLY HAVE to RESIST and OVERTURN their centralization of power and control over OUR Lives, and to **Organize! and ORGANIZE!!...**

**“I have tread and stood upon of the graves of
‘Presidents’, ‘Kings’, ‘Emperors’, and ‘Pharaohs’...**

...and as they all lie moldering in their tombs, slowly returning to the dust from which they came, and not one of them could take even a shred of all their ‘Money, Wealth, or Power’ with them”...

And, as their physical bodies return again to the Earth, perhaps the way they had conducted themselves in life and had treated others may very well have determined whether their ‘spirit-selves’ have advanced to the ‘next level’ or have found themselves to have become as mere ‘servants, slaves or prisoners’ in the next World.

Chief Tecumseh

Tecumseh was a Shawnee warrior chief who organized a Native American confederacy in an effort to create an autonomous Indian state and stop white settlement in the Northwest Territory (modern-day Great Lakes region). **He firmly believed that all Indian tribes must settle their differences and unite to retain their lands, culture and freedom.** Tecumseh led his followers against the United States in many battles and supported the British during the War of 1812. But his dream of independence ended when he was killed at the Battle of Thames, which led to the collapse of his Indian confederacy.

Money, Wealth, and Power can be a very corruptive influence over the psyche of man where men can begin to imagine themselves as 'Gods' in pursuit of more wealth, power and control over the lives of others for essentially predatory purposes.

The infiltration of the corrupt Illuminati into the Freemasons and into the 'halls of power' in our own government is in a very large part responsible for the marginalization, theft and genocidal treatment of the Native American tribes in what was referred to as 'The New World'—And now we have the implementation of what these Globalist forces refer to: 'The New World Order'.

This time, "We Are All 'The Natives'."

Chief Tecumseh fought for Freedom, Self-determination, and the Survival of his people, his culture, and independence as Sovereign Nations and Human Beings.

This time.. **FAILURE IS NOT AN OPTION!**

Ask yourself; "What is 'Universal Truth', and what does it mean?" ...
And to Understand what Truth is, We Must First Start with the Absolute Fundamentals...

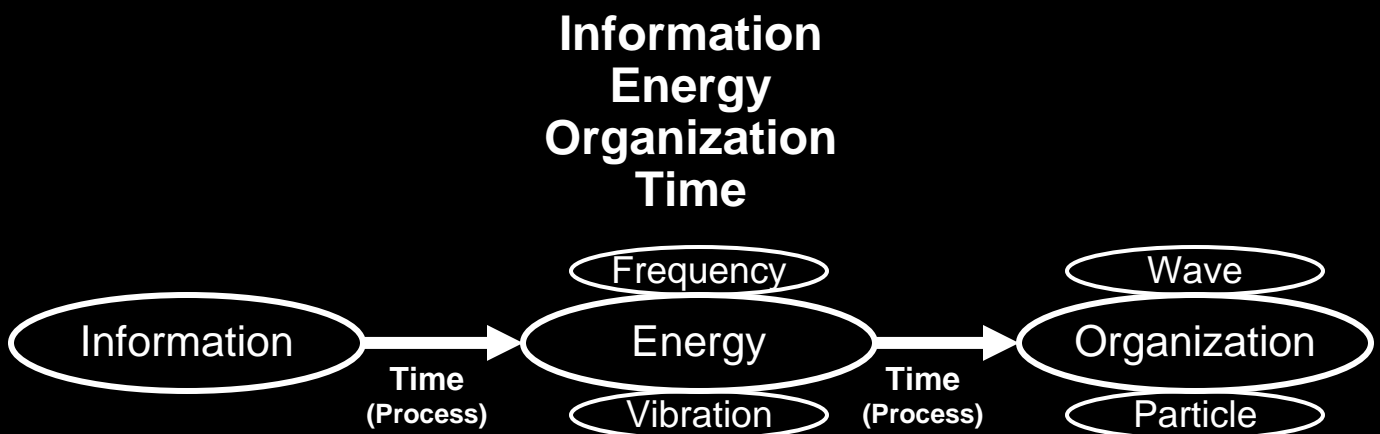

**If you want to find the
secrets of the universe,
think in terms of energy,
frequency and vibration.**

Nikola Tesla

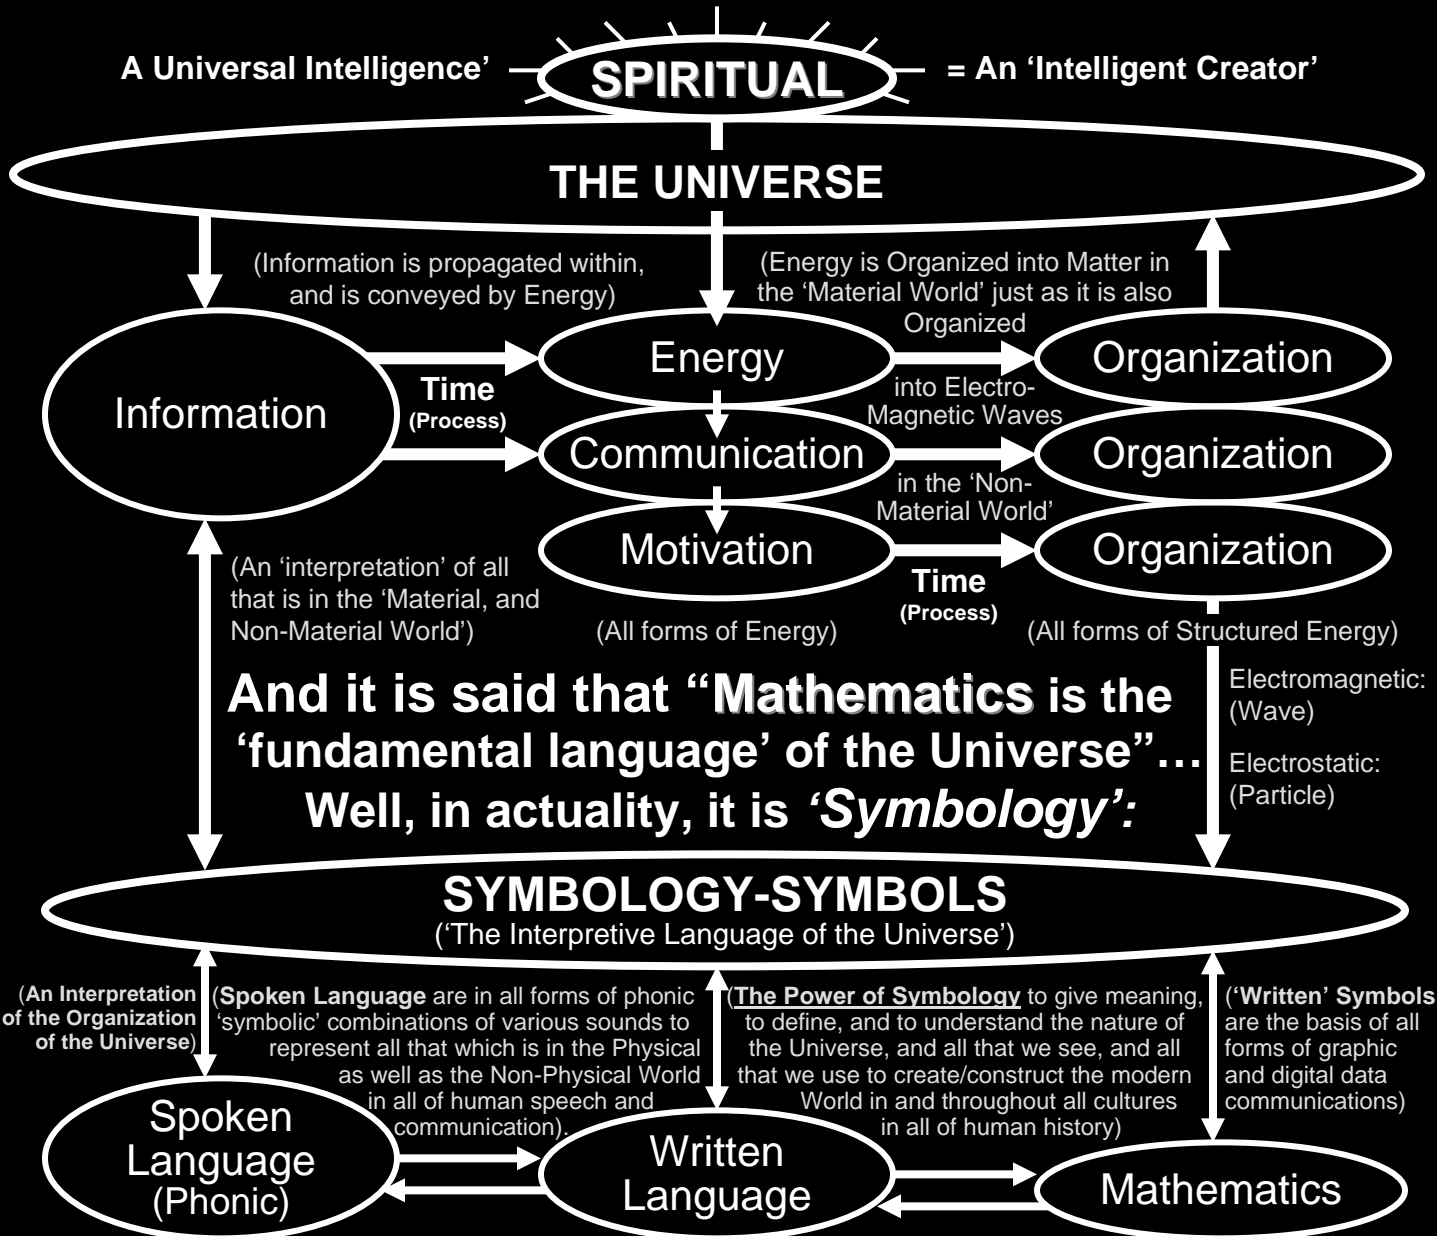

Tesla speaks here of "energy, frequency and vibration", where 'frequency' and 'vibration' are actually just two manifestations of that energy. And, as many physicists have been coming to the conclusion that the Universe at the most fundamental level at it's core, is basically made of 'Information'. And we can see how powerful information can be, just look at the massive growth, profit and the power that is being amassed by the 'tech industry' (Information Gathering & Processing) as we can see today.

**The Universe is essentially made of 'Information' and
it is the most powerful factor of our Universe**

Actually, the Universe basically runs on four key fundamental factors that are at the core of it's projection, propagation, and function.
These are in order of significance:

Then in considering the fact that the Universe at it's core is made of 'Information', and that information necessarily requires a form of intelligence to create, communicate, or to interpret it, would it not make sense to consider that perhaps the Universe is essentially 'Intelligent'?

'The Symbolic World': 'Spoken Language' developed into 'Written Language' which developed into 'Mathematics'.
(Even your thoughts could be considered to be present in your mind in the form of a 'symbolic' representation of the World.)

And the movement of the first three primary fundamentals of Information, Energy, and Organization are all governed by the 'fourth factor', and that would be the flow of

' Time '

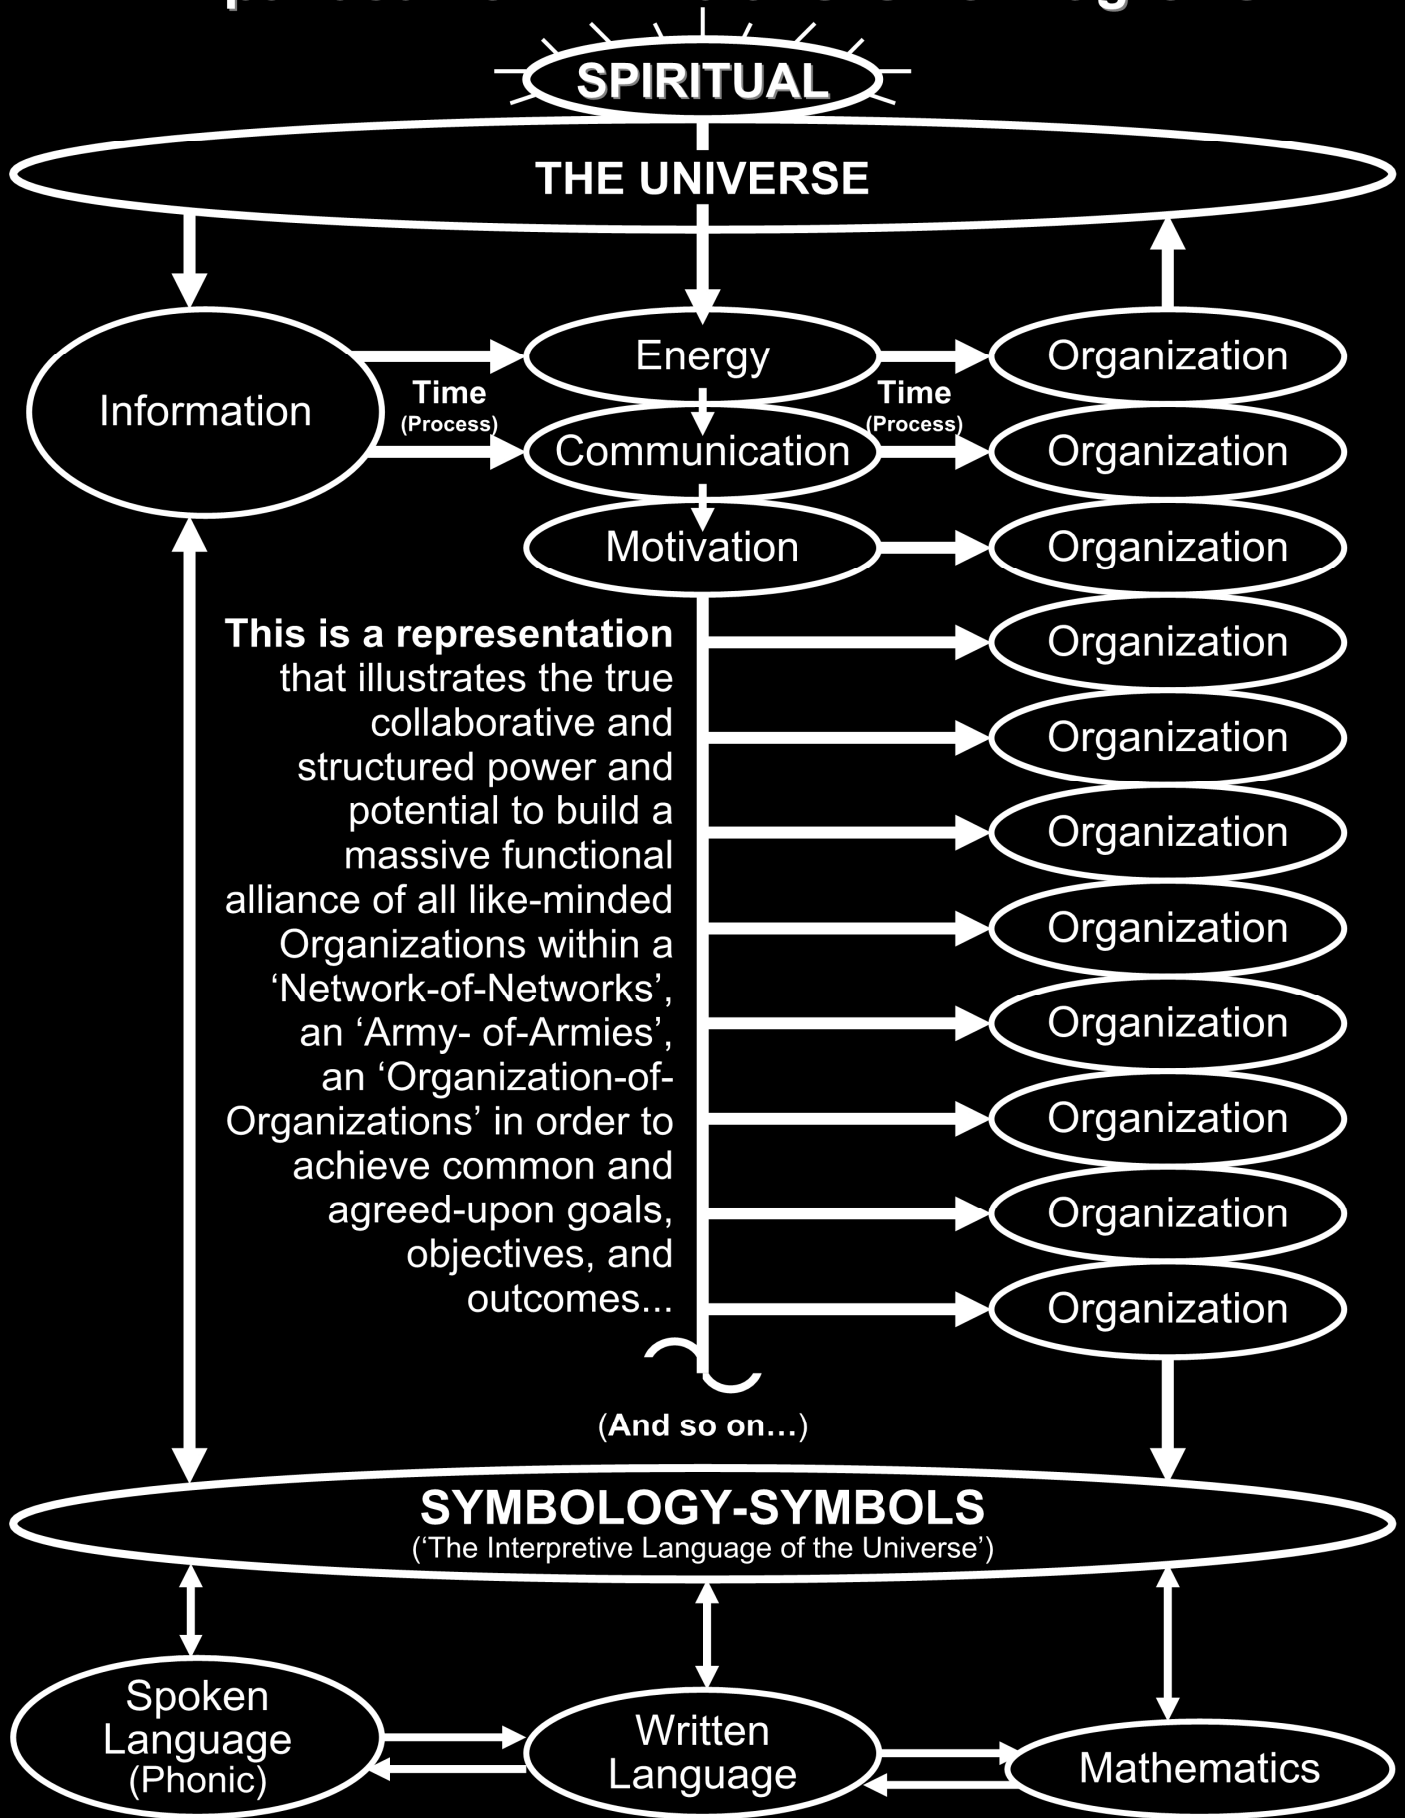

(Is that which facilitates the 'Process' of converting Information into both Wave and Particle form)

(Which can be referred to as "The 'River' of Time" or "The 'Arrow' of Time" that we are all moving in.)

This model above shows that Communication is a form of that Energy just as Motivation, or the 'motive force' that gets work done or moves something. Organization is how it is aggregated as the Collection, Organization, and the Structuring of that Information.

You can even visualize the above diagram as a schematic to possibly represent the functioning of an 'Information Processing Machine' ('Motor' or 'Engine').
